

Dear Valued Customers,

Nothing is more important than the health of our customers and employees. We have been closely monitoring the spread of COVID-19 (novel Coronavirus) and early on convened a team of experts, including medical advisors, to address the potential threat of the virus following the guidance of the Centers for Disease Control and Prevention (CDC) and the World Health Organization (WHO)

We have already implemented plans designed to protect our customers and employees and to help ensure our stores remain open for the convenience of our customers and their daily needs.

We have enhanced our already comprehensive in-store cleaning and sanitization processes, and continued emphasis on proper personal hygiene, including more frequent handwashing and the proper use of hand sanitizer. We have also distributed cleaning supplies which have been EPA-certified to kill the COVID-19 virus, with instructions to increase the frequency of cleaning commonly touched surfaces, including bathrooms, touchscreens, door and cooler handles, dispensers, and pin pads. Soon, Speedway will be supplying our stores with hand sanitizer stations for customer use, adding an additional level of protection.

We are also working closely with medical professionals and health agencies to provide up-to-date, accurate information from reliable sources to our employees. Weekly communications and a dedicated internal COVID-19 website educate our employees about the best ways to avoid becoming ill, what to do if they suspect they might be ill, and how to properly communicate with store and company leadership any concerns.

At Speedway, we understand the vital role our stores play in communities and the value of the employees who staff and operate those stores. We also understand our customers want to know that Speedway is taking the necessary precautions to help prevent the spread of COVID-19. We earn your trust one visit at a time, and if you have any concerns, please contact Speedway Customer Service at 1-800-643-1948.

Sincerely,
